Product highlights

Guaranteed zero interference
Guarantees zero interference from any other device (other baby monitors, cordless phones and mobile phones). Provides a secure and private connection using data encryption. You will be the only one who can hear your baby and you will only hear your own baby.

Temperature sensor
Babies need extra time to adjust to temperature changes. The adjustable sensor monitors baby's room for optimal comfort and the personal temperature range settings alert you to adjust the climate when needed.

Humidity sensor
The Humidity sensor monitors the correct humidity level, detecting dry air that may irritate baby's throat. Personalised settings help maintain a healthy, comfortable climate in baby's room.

Digital signal confirmation
Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

Sound level lights
Uses lights to indicate if the baby makes noise, even with volume off.

Adjustable sound sensitivity
The adjustable sound sensitivity function will allow you to increase/decrease the microphone sensitivity, to enable you to listen to your baby breathe.

Philips AVENT Advantage
Choosing Philips AVENT means you have the assurance of superior quality products, designed with you and your baby's needs in mind.

Lullabies and night light
An integrated night light and specially selected lullabies soothe baby to sleep.

Parent talk-back
Allows you to hear your baby and to talk to them.

Small, rechargeable parent unit
The rechargeable parent unit gives you the freedom of cordless roaming for 24 hours before re-charging is required.

Belt clip, neck cord and travel bag
The belt clip and neck cord provide hands-free convenience and mobility and the travel bag offers complete protection whilst on-the-go.

With a range up to 330 m
With a range up to 330 m you are ensured a secure reception in and around the house.
